

## BEACHBUDDY BCHB

### DIMENSIONS

**Width:** 52 cm

**Depth:** 55 cm

**Height:** 34 cm

### PRACTICAL INFO

**Weight:** 2,5 kg

**Weight incl. box:** 12,5 kg (4 pieces in 1 box)

**Cbm:** 0,20 m<sup>3</sup> (4 pieces in 1 box)

**Loadability:** 1072 (40 ft)

1286 (40 ft High Cube)

Depending on the contents of the container,  
the loadability may slightly be higher or lower.

### FRAME

**Material:** extruded aluminium tubes

**Production:** bending

**Finishing:** powder-coating (semi mat)

**Special performances:**

- Recyclable
- Strong and durable
- Resistant to chlorine and salt water.

### FABRIC

**Material:** polyester mesh covered with PVC coating  
(Batyline, Ferrari)

**Special performances:**

- Extremely strong and durable
- Recyclable
- UV and mildew resistant
- Minimal stretch

### CAPS

**Material:** PP (polypropylene), recyclable

**Production:** injection moulding

### CROSS BARS

**Material:** aluminium

**Production:** die-cast moulding

### MATRASS

**Material:** PU foam covered by waterproof Nylon, anti-slip dots on the bottom

**Production:** thermoforming, stitching

**Special performances:**

- Alpine quality
- Easy washable
- UV resistant

### BAG ACCESSORY

**Material:** Nylon fabric, velcro strips

**Production:** stitching

### PACKAGING

This item is carefully wrapped in bubble foam before it is placed in a double layer carton box.

To obtain maximum loadability, this item is packed by 4 in 1 box.

### QUALITY

During the production process this piece of furniture is subject to the following quality inspections:

- Inspection of frame strength
- Inspection of matrass finishing (welding, stitching)
- Inspection and testing of Batyline tension
- Inspection of packaging

### GUARANTY

Two years guarantee according to European regulations.

**DIMENSIONS**

**Width:** 69 cm  
**Depth:** 220 cm  
**Height:** 36 cm

**PRACTICAL INFO**

**Weight:** 10 kg  
**Weight incl. box:** 26,5 kg (2 pieces in 1 box)  
**Cbm:** 0,95 m<sup>3</sup> (2 pieces in 1 box)  
**Loadability:** 130 (40 ft)  
156 (40 ft High Cube)

Depending on the contents of the container,  
the loadability may slightly be higher or lower.

**FRAME**

**Material:** extruded aluminium tubes  
**Production:** bending, welding  
**Finishing:** powder-coating (semi mat)  
**Special performances:**

- Recyclable
- Strong and durable
- Resistant to chlorine and salt water.

**FABRIC**

**Material:** polyester mesh covered with PVC coating  
(Batyline, Ferrari)  
**Fixation:** fixed between aluminium frame with piping system  
**Special performances:**

- Extremely strong and durable
- Recyclable
- UV and mildew resistant
- Minimal stretch

**CAPS**

**Material:** PP (polypropylene), recyclable  
**Production:** injection moulding

**RECLINING MECHANISM**

**Material:** stainless steel (type 304)  
**Production:** welding  
**Finishing:** transparent powder coating for extra durability and protection

**PACKAGING**

This item is carefully wrapped in bubble foam before it is placed in a double layer carton box.

To obtain maximum loadability, this item is packed by 2 in 1 box.
